PERSONAL PROFILE

I am a reliable, trustworthy and flexible individual who can learn new skills easily and work swiftly and effectively either alone or as part of a team. I am seeking an employment which will allow development, growth and make use of my existing skills

EDUCATION

Bachelor`s Degree in Software Engineering. | National Aviation University
09.2016 – PRESENT

Professional Computer Education Course | IT Step Academy
07.2017 - 07.2019

WORK EXPERIENCE

Full stack .Net developer | IT Step Academy
13.04.2019 - 27.04.2019

Took part and was managing the development of "Path finder" service (an easy tool to build a path including important company objects locations on the map)

Full stack .Net developer | IT INNOVATIONS
27.02.2020 – PRESENT

During my first project, working alone, developed a reporting system where data from multiple sources was fetched and processed to provide a user with an easy report generation tool.

My second project was connected with interface customization of existing K2 system, I developed a pack of custom controls there.
